Overview and How to Use This Directory

Capacity building involves strengthening nonprofits so they can better achieve their missions. Types of capacity-building services include (1) assisting with community needs and readiness assessments related to the nonprofit's areas of work, (2) providing consultation, technical assistance and access to information resources, and (3) offering direct financial support to strengthen nonprofits and increase their capacity to serve their communities. Strengths in the areas of administration, finance, human resources, technology and facilities are among those that may be enhanced by capacity-building services available from various organizations and individuals in the communities. Some services are offered on a fee-for-service basis and some are offered free of charge to nonprofits, usually because they are underwritten by a funder (foundation or government agency).

This *Directory* offers a starting place to identify individuals and organizations providing capacity-building services and resources to nonprofit organizations in Los Angeles County. While we have attempted to be thorough in identifying these resources, and accurate in providing information about them, we acknowledge that this listing is not comprehensive, and that information about resources changes frequently (see Disclaimer following). Readers who represent or know of individuals or organizations that provide capacity-building services, but that are not already listed in the *Directory*, are encouraged to provide us with information that may be included in future editions.

The types of resources listed are:

- Consultants - Los Angeles County
- Foundations - Los Angeles County
- Human Resource Provider Organizations - Los Angeles County
- Grantseeker Information Centers - Los Angeles County
- Management Support Organizations - Los Angeles County
- Nonprofit Management Higher Education Programs - Los Angeles County
- Nonprofit Resource Centers - Surrounding Counties
- Technology Resources - Los Angeles County
- Volunteer Centers - Los Angeles County

For each listing, we provide (to the extent this information was available to us - for example, a number of listings do not include a contact person) the name of the individual or organization, a contact person, address, telephone number, fax number, e-mail address, and website address. A brief description of each resource's capacity-building activities also is included.

Note:

For more information on capacity-building, visit humaninteract.org or refer to: Backer, T.E., Blegg, J.E. & Groves, K. (2004). *The expanding universe: New directions in nonprofit capacity building*. Washington, DC: Alliance for Nonprofit Management. For more about the local infrastructure of nonprofit capacity building, see Backer, T.E. & Barbell, I. (2004). Directory Uses in the San Fernando Valley

This *Directory* also supports **Valley Nonprofit Resources** (VNR), which offers capacity-building services and information to the more than 4,000 nonprofit organizations in the San Fernando Valley (see listing in this *Directory*). Established in 2007, VNR is operated through a partnership of the Human Interaction Research Institute, California State University Northridge, MEND and Volunteer Center of Los Angeles, all Valley-based. VNR serves nonprofit executive directors, staff and board members, plus leaders of volunteer groups and of smaller foundations.

The VNR program model was developed through broad community input gathered since 2001, including a 2003 conference attended by 120 local nonprofit leaders, and a 2005 feasibility study funded by The California Endowment. For more information: visit www.valleynonprofitresources.org, or contact Diana Medina Wiley at VNR; 818/990-0176, infnow@valleynonprofitresources.org.

Disclaimer

This *Directory* is based upon publicly available information, plus information supplied by the individuals and organizations listed. Each listing was submitted to the organization or individual profiled, with a request for editorial input, and changes received were incorporated into the listing. No independent effort was made to verify accuracy or completeness of the information provided, so all users of this *Directory* should regard it only as a place to begin in their search for capacity-building resources.

Only organizations or individuals based in Los Angeles County were included. There is one listing of nonprofit resource centers in adjacent counties. There are many additional resources for capacity building used by Los Angeles County nonprofits based in other regions.

No endorsement is implied of any organization or individual listed. Quality of services was not in any way assessed. Many equally-qualified capacity building providers may have been omitted from this edition. Those who would like to be listed in future editions of the *Directory* may contact us to provide the relevant information.
